EDUCATION

Grambling State University

Expected May 2028

Bachelor of Science in Computer Science, 3.95/4.0 GPA

- **Relevant Coursework:** Object-Oriented Programming, Database Management, **Data Structures & Algorithms**, Operating Systems, Computer Networks, Cloud Computing

TECHNICAL SKILLS

Programming Languages: Python, Java, JavaScript, C++, HTML/CSS, SQL

Frameworks & Libraries: React, Node.js, Angular, Django, Bootstrap, jQuery

Tools & Platforms: Git, Docker, AWS, Jenkins, JIRA, Visual Studio

Databases: MySQL, MongoDB, PostgreSQL, Oracle, Redis, SQLite

EXPERIENCE

Google Basta Fellow (GSWEP)

Aug 2026 – Present

Google

- Developed a **machine learning model** that reduced data processing time by **35%**, using **Python** and **TensorFlow**
- Collaborated with a team of five engineers to implement **automated testing scripts**, decreasing bug occurrence by **40%**
- Designed a new user interface for an internal tool, enhancing user experience scores by **50%**
- Optimized **database queries**, resulting in a **25%** increase in data retrieval speed
- Participated in weekly code reviews, leading to a **15%** reduction in code defects

Software Engineer Fellow

Jul 2026 – Oct 2026

HeadStarter AI

- Crafted a **Java**-based tool that automated **cloud resource allocation**, saving the team approximately 10 hours monthly
- Enhanced an existing application's security by integrating **encryption algorithms**, lowering vulnerability threats by **25%**
- Contributed to a collaborative code review process, enhancing code quality and reducing bugs by **40%** through peer evaluations

Bloomberg Tech Lab Fellow

Oct 2025 – Dec 2025

Bloomberg

- Developed **microservices architecture** that improved scalability by **35%**
- Integrated **third-party APIs** to enhance functionality, reducing development time by **25%**
- Optimized database queries, achieving a **30%** reduction in latency
- Built automated **CI/CD pipelines**, leading to a **40%** increase in deployment efficiency
- Participated in code reviews, resulting in a **20%** reduction in post-deployment issues

IT Assistant

Sep 2024 – Apr 2025

Grambling State University

- Conducted regular software updates and patches, improving system security by **10%**
- Assisted in network setup and troubleshooting, resulting in a **95%** network uptime on campus
- Created and maintained IT inventory records, reducing equipment loss by **5%**

PROJECTS

Stock Price Prediction (AI4ALL) | Python, FINBert, Scikit-learn

- Built an end-to-end **financial NLP pipeline** over **322K headlines** and **20M stock records** using **FINBert** sentiment analysis
- Designed a novel Competitive Pressure Index capturing negative news surge relative to each stock's baseline coverage; trained a **Random Forest classifier** achieving **54%** 5-fold cross-validated accuracy and a **Logistic Regression** baseline with full confusion matrix evaluation

CITIES Dashboard | React, Material UI, Google Charts, GitHub Actions

- Co-developed an interactive dashboard providing **20K+ students** across Monroe, Louisiana schools with air quality insights
- Automated deployment workflows using **GitHub Actions**, streamlining **CI/CD** and reducing manual deployment effort

LEADERSHIP & PROFESSIONAL DEVELOPMENT

ColorStack Grambling Academic Chair

Aug 2026 – Present

Grambling State University

- Lead weekly problem-solving hours, solving and explaining **LeetCode** questions live to help members build interview-ready coding skills
- Teach core **data structures and algorithms** concepts, translating theory into patterns members can apply directly to technical interviews

Other Contributions: JPMorgan Data for Good Hackathon (April 2026), Open-Source contributions: **Apache Kafka**, **pgjdbc**, **kubernetes-client/java**, **facebook/react** (20+ PRs), NSBE Treasurer, Lantern Network Ambassador
